Lanyard anatomy

Material

Choose from a wide variety of materials depending on your needs.

Safety breakaway

A safety breakaway will disconnect under pressure, eliminating the risk of choking.

Customisation

Imprints vary from economical and durable one-colour to extremely detailed and everlasting with multiple colours.

Standard width

10 mm

15 mm

20 mm

25 mm

Imprinting type : **Silkscreen**

Long-
lasting
prints

Vibrant
lanyard
prints

Lanyard silkscreen printing is one of the most common lanyard printing methods because of its durability and vibrancy of the printed colours. This process is charged based on the number of colours printed and hence print designs cannot consist of too many colours. In addition, gradients and shadings are not available in the prints of the lanyard. If you are looking to print just a simple corporate logo without too many colours, this will be the right choice for you!

1/ Material

Ribbed polyester :

Ribbed polyester printed lanyards are affordable and the most popular type of lanyard that we produce. Your text and design are silkscreen printed onto the lanyards.

MOQ : 100pcs

Packaging : 25pcs/polybag

Tubular polyester :

Same highly quality polyester twill as the ribbed polyester lanyards, however, the material is tube stitched into a soft unique feel that's very comfortable to wear.

MOQ : 100pcs

Packaging : 25pcs/polybag

Green
product

Bamboo :

Soft and comfortable, these 100% bamboo fibers lanyards are also easily broken down in the soil and therefore help reduce environmental waste and pollution.

MOQ : 500pcs

Packaging : 25pcs/polybag

2/ Width

	Polyester	Tubular	Bamboo

Detachable buckle

Metal crimp

Additional attachments available.

* Special request only

For multi colour imprints on both sides dye sublimation is the way to go. Dye sublimated lanyards use a heat and pressure in order to apply the imprint to the material. Another advantage of dye sublimation over screen printing is that the imprint does not sit on the surface of the material, but gets transferred into the material. Since the imprint is not "on" the surface it is less likely to become scraped and worn.

1/ Material

Polyester satin :

Smooth, satin-like polyester material. The absolute smoothest and shiny base for fine details, multiple colours and edge-to-edge printing.

MOQ : 100pcs

Packaging : 25pcs/polybag

2/ Width

Also known as embroidered lanyards, our custom woven lanyards feature a strong polyester material dye to your specified colour choice. Your design is stitched directly into the fabric of the lanyard making a high quality and long lasting lanyard. This allows for a more professional look. This design is not suitable for intricate designs.

1/ Material

Polyester :

Woven lanyards are made from the same material as our polyester printed lanyards. However, with woven lanyards, text and design is woven into the lanyard with thread - similar to the embroidery process used on patches.

MOQ : 100pcs

Packaging : 25pcs/polybag

2/ Width

Bamboo lanyards

Breakaway bamboo lanyards

Attachment

Wide plastic no-twist hook

Safety breakaway

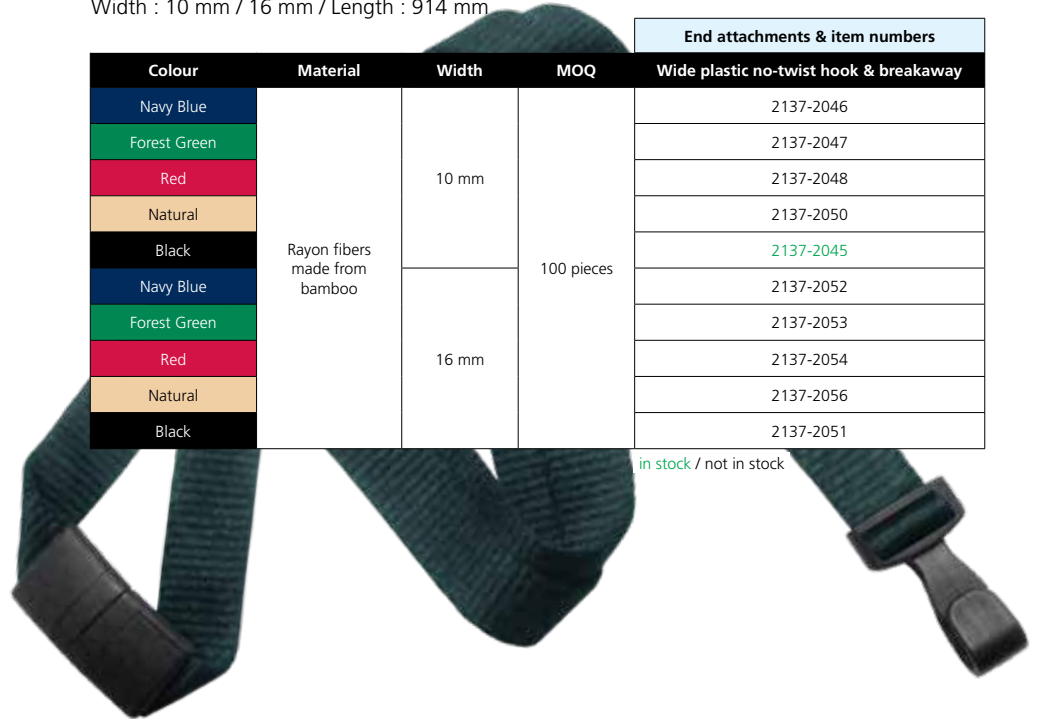

Due to its fast growth, bamboo is one of the Earth's most sustainable resources. It is a cellulose fiber that is easily broken down in the soil. These lanyards are comprised of rayon fibers made from bamboo. We customise our lanyards with water-based inks. Available in breakaway only with wide plastic hook.

in stock / not in stock

In stock products can be delivered around 1-4 working days. Leadtime for **non stocked products** may vary around 4 to 6 weeks. Exact leadtime needs to be confirmed on request.

Customisation

3 reasons to customise

1. Brand awareness

Your logo and brand will be displayed every time the product is used.

3. Maximise your revenue

Use lanyards as a means of advertising by printing your sponsors' logos.

2. Easy visual identification

Don't let gatecrashers spoil your event. Identify authorised guests and maintain safety.

What can we customise?

Custom lanyards

(see from p4 to p7)

Add full colour printing logo.

Sliders

(see p12 & 13)

Add full colour printing logo.

Badge reel

(see p11 & p14)

Add full colour printing logo.

Printing logos

IMPORTANT INFORMATION So that we can guarantee the quality of our products we only accept the following file formats:

Format	Applications	Note	Favourite
ai	Illustrator	Convert text to outline	***
eps	Illustrator / Photoshop	Convert text to outline	***
pdf	Illustrator	Convert text to outline	***
tiff / psd	Photoshop	300 dpi minimum	**
jpg	Photoshop	300 dpi minimum	*

Beware! Before you send your illustrations, please check the quality. For technical reasons we do not accept low quality files!

No blur

No pixellised file

No fax

No patterns or shading

Clear design in black and white

High quality picture
